

Second

International Acid Gas Injection Symposium

2010

September 27-29, 2010, Calgary, Alberta, Canada

CALL FOR PAPERS

Potential authors are invited to submit a minimum 300 maximum 500 word abstract on a topic related to any aspect of acid gas injection. We are looking for topics related to both surface operations and subsurface phenomena. Papers should be submitted in MSWord format (either 2007 or 2003-97 versions).

Papers may be accepted as either a presentation or a poster. Presenting authors will be eligible for a reduced registration fee.

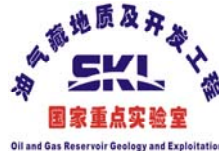

Upon acceptance of their papers authors are to submit a paper, the format will be communicated with the authors at a later date. The paper will be included in the proceedings, which will be given to all attendees.

Topics

- ↷ Operating experience
- ↷ Reservoir engineering aspects
- ↷ Acid gas properties
- ↷ Phase equilibrium
- ↷ Acid gas wells and completions
- ↷ Relevant geochemistry
- ↷ Processes to aid injection
- ↷ Corrosion
- ↷ Compression and pumping
- ↷ Health, safety, and environment
- ↷ Legal considerations
- ↷ CO₂ injection, EOR and sequestration

STC

Timetable

- Abstracts due:** 15 June 2010
- Notification of authors:** 30 June 2010
- Submission of papers:** 31 August 2010

Technical Committee

Chairman: *John J. Carroll, Director*
Gas Liquids Engineering Ltd.

Committee:

- Scott Northrop, Research Engineer,**
ExxonMobil Upstream Research, USA
- Du Zhimin, President**
Southwest Petroleum University, China
- Alan E. Mather, Professor**
University of Alberta
- Peter J. Griffin, Vice President**
Gas Liquids Engineering Ltd.
- Luo Pingya, Professor**
Academician of China Engineering Academy
Southwest Petroleum University
- Peter Mulholland, Vice President**
RPS Energy Canada Ltd.
- David K Boadi, Research & Technology Advisor**
Canada Revenue Agency
- Mehran Pooladi-Darvish, Vice President**
Fekete Associate Inc.
- Zhong Dakang, Professor & Doctoral Supervisor**
China University of Petroleum, Beijing
- Zhu Weiyao, Professor & Doctoral Supervisor**
University of Science & Technology Beijing

Organizer: Sphere Technology Connection / State Key Lab, China

Phone: 403-619-6215 / Fax: 1-888-8944941 / E-mail: information@spheretechconnect.com training@spheretechconnect.com

CONFERENCE SCHEDULE ARRANGEMENT

September 27, 2010 __ Workshop I, Sour Gas Treatment by Ray Tomcej

September 28-29, 2010 __ Acid Gas Injection Symposium

September 30, 2010 __ Workshop II, Acid Gas Injection By John Carroll

September 28-29, 2010, __ Trade Show Exhibitions

SPHERE TECHNOLOGY CONNECTION LTD.
